Re: *Committee for a Livable Future - C00323352*

I am responding to your letters addressed to Robert Stacey, former Treasurer for Committee for a Livable Future, as I am the individual who prepares the FEC reports for signature.

Enclosed are amendments as follows:

- April 15 Quarterly Report - The \$1,000 contribution which was not cashed by the recipient committee has been removed from the refund line (16) and instead included with Itemized Disbursements as a negative contribution.
- 12-Day Pre-Election Primary Report - Although you sent no exam letter regarding this report, the April Quarterly Report change necessitated an amendment of this 12-Day Report.
- July 15 Quarterly Report - The total on Line 11c, Column B of the Detailed Summary Page has been corrected. All of the contributions you noted in the exam letter's attachment should have been checked "general", rather than "primary". This change has been made to the amendment.
- October 15 Quarterly Report - The calculations for Lines 11a through 20, Column B, have been corrected. Also, it appears the original report had one page missing which detailed Contributions to Federal Candidates. These pages have been amended to accurately report the \$22,000 in contributions reported on the Detailed Summary Page.

Although exam letters were not received for the 12-Pre-Election General Report or the 30-Day Post-Election Report, I will be sending amendments of these, as well, which will correct totals on the Detailed Summary Pages due to the changes above. Those amendments will be filed as soon as possible, along with the Year-End Report.

Please call me, Donald, at 503-295-1851 if you have any questions regarding the amendments.

Thanks!

Susan C. Matthews
